

SC5000

The agile solution for dynamic floorcare performance

Get closer to the edge than ever before

Conquer every corner and every aisle – every time

Built to deliver high-performance floorcare without interfering in your daily business, the compact, highly maneuverable SC5000 is designed to succeed in the most challenging environments.

With a clear view of every cleaning path, and ergonomic controls for intuitive use with minimal training, your operator can focus on getting the

job done quickly and effectively – while maintaining complete awareness of their surroundings.

By pairing easy operation with trusted Nilfisk performance, in a new form factor that's more space-efficient than ever, the SC5000 represents our commitment to smooth, easy cleaning from start to finish.

- 
- 30 % more productivity per tank
 - SmartKey included
 - 140 L tank capacity
 - 4.5 hours' runtime
 - 63 dB operating sound level
 - 8 km/h operating speed
 - Scrub path (cm):
 - 81 (disc)
 - 86 (cylindrical)
 - 91 (cylindrical)

Easier than ever

All command functions are integrated into the steering wheel – including user-specific SmartKey and SupervisorKey configurations – so operators can adjust the SC5000's settings to match any job.

Servicing and maintenance information is provided via the large, digital HUD.

Quick and nimble

Its best-in-class turning radius makes the SC5000 adept at getting around any corner, and down every aisle, without getting in the way – even in high-traffic environments.

Turn the biggest challenges into small ones

Handle the most complex cleaning environments with
confidence – in any industry

Warehousing & Logistics

In spaces that can be tremendously open or extremely narrow, the agile SC5000 leaves floors spotless and safe in less time – and doesn't disrupt your business.

Light industry

SmartFlow™ technology allows the SC5000 to strike a perfect balance between performance and resource-efficiency – without compromising on safety or visual presentation.

Heavy industry

With total environmental visibility, and an optional protective canopy, the SC5000 ensures safety while upholding your standard of clean.

Technical specifications

Description	Unit	SC5000 34D (860)	SC5000 32C	SC5000 36C
Reference number		56116005	56116004	56116003
Scrub Deck Type		Disc	Cylindrical	Cylindrical
Scrub Path	mm	860	810	910
Maximum Cleaning Productivity per Hour	m ² per hour	7740	5500	8190
Scrub Brush Size	mm	430 - Qty 2	810	910
Brush Motor Power		1HP (750 Watt)	.75HP (550 Watt)	.75HP (550 Watt)
Solution / Recovery Tank Capacity	L	140	140	140
Gradability Scrubbing	degree	7	10	10
Sound Level	dBA	64	59	59
Voltage	V	36	36	36
Brush Speed	RPM	250	900	900
